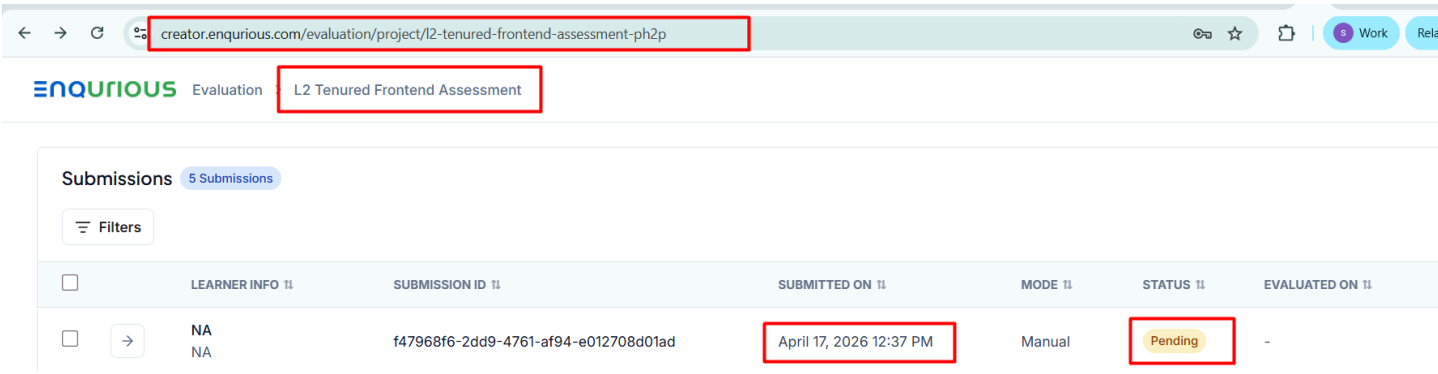
MACH Assessment Workflow Overview

1. Assessment Submission

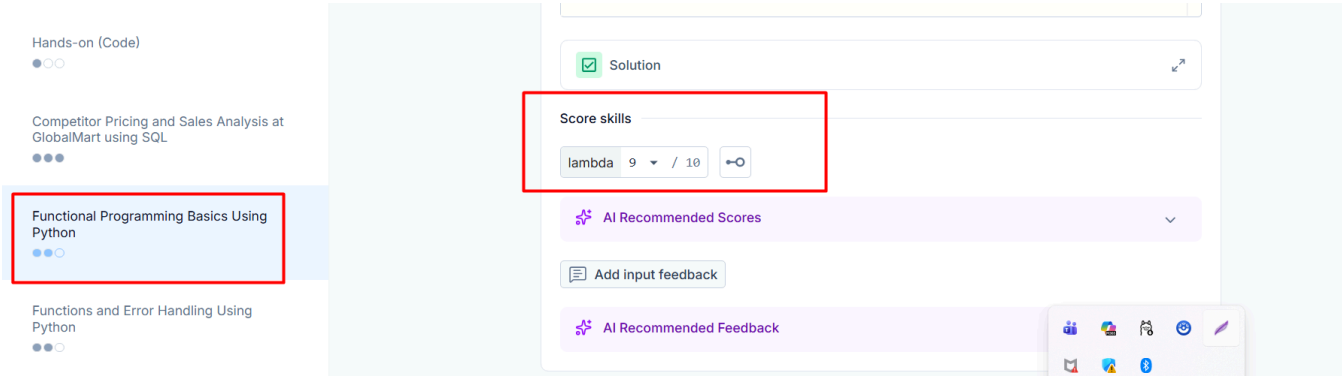
Participants complete and submit the assessment.
Screenshot:



---

2. Evaluation Process

- Assessments are evaluated in the **creator account**.
- Skill scores are retrieved from the database using the **Deployment ID**.
  Screenshot:



---

3. Skill Score Consolidation

- Skill scores are recorded in a **Google Sheet**.
- Based on the scores, the **MACH level** is determined for each participant (per skill/tool).
  Screenshot: Google Sheet with skill scores

MACH Skill Sheet

A	B
SKILL	MACH PROFICIENCY
missing-values	MACH 1
outliers	MACH 2
central-tendency	MACH 1
shape	MACH 2
choice-of-visuals	MACH 1
regularization	MACH 2
choosing-model-metric	MACH 2
data-feature-engineering	MACH 3
feature-importance	MACH 3
categorical-encoding	MACH 1
scaling	MACH 1
regression-baseline-model	MACH 2

ML Skill Score

Email	Domain	Skill	Total Score Available	Total Score Obtained	MACH Level of ski
abarna.s@mathco.com	Machine Learning	missing-values	10	9	MACH 1
abarna.s@mathco.com	Machine Learning	outliers	10	10	MACH 2
abarna.s@mathco.com	Machine Learning	central-tendency	10	9	MACH 1
abarna.s@mathco.com	Machine Learning	shape	10	0	MACH 2
abarna.s@mathco.com	Machine Learning	regularization	10	9	MACH 2
abarna.s@mathco.com	Machine Learning	choosing-model-metric	10	8	MACH 2
abarna.s@mathco.com	Machine Learning	data-feature-engineering	10	9	MACH 3
abarna.s@mathco.com	Machine Learning	feature-importance	10	7	MACH 3
abarna.s@mathco.com	Machine Learning	categorical-encoding	10	8	MACH 1
abarna.s@mathco.com	Machine Learning	scaling	10	5	MACH 1
abarna.s@mathco.com	Machine Learning	regression-baseline-model	10	8	MACH 2

MACH Readliness

email	MACH	COUNTA of MACH	SUM of Proficiency	MACH Qualification	MACH Readine
abarna.s@mathco.com	MACH 1	4	3	0.75	Ready
	MACH 2	5	4	0.8	Ready
	MACH 3	2	2	1	Ready

MACH Qualification

A	B
Email	**MACH Qualification**
abbaraju.vaishnavi@mathco.com	MACH 3

---

4. Participant Selection

- From the nomination list, the required participant is identified.
- Mentor updates:
  - MACH Level
  - Skill Score

    [Screenshot: Nomination list / mentor input sheet]

From the nomination sheet we identify the participant.

5. Client Sheet Update

- Mentor sheet data is copied into the finalized skill scores.
- Updates are made in respective client sheets:
    - DAC
    - ESS
    - CP

---

6. Participant Data Sharing

For each participant, the following details are shared:

- Skill Score Sheet
- MACH level

---

7. Sheet Structure

- **DAC:** 3 MACH level sheets + 3 Skill score sheets → Total 12 sheets
- **ESS:** 3 sheets
- **CP:** 3 sheets

---

8. Sheet Optimization & Integration

- Chethan consolidates 18 sheets into **12 sheets**.
- These 12 sheets are connected to **Metabase**.

Final Structure:

- 3 MACH level sheets (one per service line)
- 1 Skill score sheet (one per service line)

---

9. Dashboard Creation

- A dashboard is built using the integrated sheets in Metabase.
